

Hello, I'm

Subhadeep Adhikary

B.Tech student passionate about Computer Science Engineering with interests in Internet of Things (IoT), Cyber Security, and Blockchain Technology. Skilled in C, Python, Django, and DSA with hands-on project experience in AI systems and predictive applications.

EDUCATION

B.Tech in Engineering
Asansol Engineering College
Expected Graduation: 2027

Higher Secondary (12th)
Achra Jagneswar Institution
67.8% • 2023

Secondary (10th)
Achra Jagneswar Institution
83.3% • 2021

SKILLS

- **Programming Languages:** C, Python, Java
- **Web Development:** Django, HTML, CSS
- **Libraries:** NumPy, Pandas
- **Core Concepts:** Data Structures & Algorithms (DSA), Operating Systems, Linux
- **Cyber & Networking:** IoT, Cyber Security, Wireless Networking
- **Cloud & Database:** Google Cloud, MySQL
- **Scripting & Utilities:** PowerShell
- **Creative Tools:** Blender, FL Studio

PROJECTS

AI Voice Assistant

Built a Python-based AI assistant capable of handling voice commands and automation tasks.

Heart Disease Predictor

Developed a machine learning prediction model using healthcare datasets.

GT Car Racing Game

Created a simple racing game with interactive gameplay mechanics.

Simple Calculator

Designed a calculator application implementing arithmetic operations.
